Item #: 6D Date: 5/4/23

Port Maritime Center and Maritime 253 Skills Center Project Authorization

Stanley Ryter, Engineering Sr. Project Manager Robert Healy, Environmental Sr. Project Manager

Port of Tacoma Commission Meeting

May 4, 2023

People. Partnership. Performance.

Request project authorization in the amount \$1,500,000, for a total authorized amount of \$1,800,000, for work associated with the Maritime Skills Center and Port Maritime Center, Master Identification No. 101549.01.

- Port Parcels 94 and 92 are being considered for potential future development.
- This request will allow for a thorough assessment of the potential cultural and environmental encumbrances on Parcels 94 and 92, supporting the Port and Tacoma School District's future progressive design build efforts in support of the Maritime Skills Center and Port Maritime Center.
- This action supports the Port of Tacoma's 2021-2026 Strategic Plan's Foundational Goals of Environmental Leadership and Community Connections:

Environmental Leadership

Remediate contaminated Port properties in a manner that ensures protection of human health and the environment while enabling economic development.

Community Connections

Strengthen, build and maintain strategic relationships with federal, state and local governments, and with the Puyallup Tribe of Indians

Port Maritime Center & Maritime 253 Skills Center

Vision: Partner with the Tacoma Public School District, the Puyallup Tribe, and community stakeholders in the development of a world class Maritime Center focused on supporting the Port's business needs and future employment needs of the maritime and logistics industry, while honoring the Puyallup Tribes heritage as the original inhabitants of the land.

Cultural Resource Considerations: The Boot

Study Area on 1867 General Land Office Map

Original mouth of Puyallup River

Historical Property Industrial Use

Parcel 94 (1948) - View of the Norwood Plywood and Door Operations

Parcel 92 (1958) - View of the Parcel located on the right side of the photograph occupied by Lynden Plywood

Environmental Considerations: Contamination

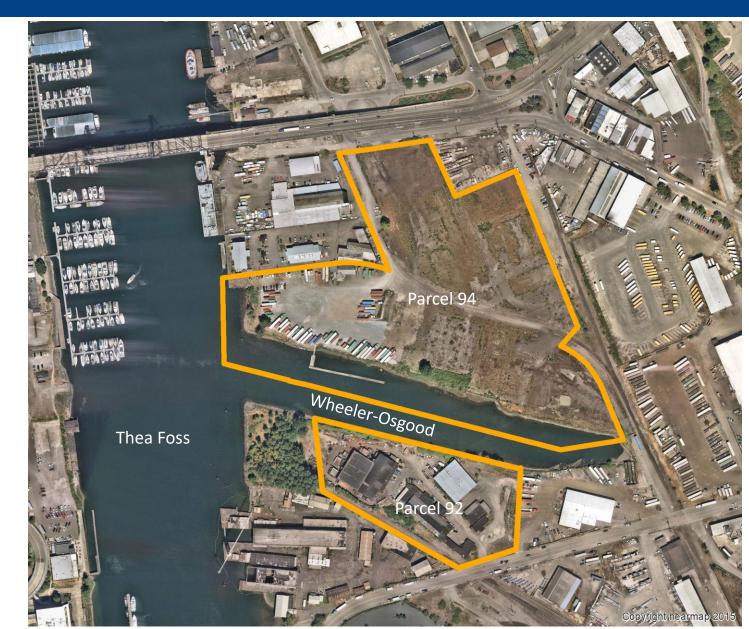

Parcel 94:

Contamination is suspected due to past industrial practices.

Parcel 92:

Petroleum contamination is present due to past industrial practices.

Wheeler-Osgood Waterway: Part of Commencement Bay Superfund Site. Cleanup is complete. Post-remediation monitoring is ongoing, results indicate cleanup is performing as planned.

The Project includes all aspects of planning, site assessment, site selection, design and construction of the Maritime Skills Center and Port Maritime Center.

The Scope of Work for this Request includes:

- Parcel 94 Environmental Site Assessment and Cultural Resource Monitoring
- Parcel 92 Environmental Site Assessment and Cultural Resource Monitoring
- Continued close coordination with the Puyallup Tribe of Indians cultural resources staff
- Specialized legal counsel for D/B contracting.

Detailed Scope Table		Phase 1	Phase 2	Phase 3		
		16 Sonic Borings	74 Sonic Borings (30-meter grid)			
Parcel 94		320 linear feet of	39 Sonic Borings (15-meter grid)			
		boring	2260 linear feet of boring	Cleanup Planning		
		5 field days	23 field days	or Additional		
		39 Soil samples	50 Soil samples	Cultural Resource		
	Description	20 Groundwater	11 Groundwater Samples	Monitoring		
	Consulting Cost	\$309,000	\$523,518			
		8 Sonic Borings				
		160 linear feet of	22 Sonic Borings (30-meter grid)	Not Estimable		
		boring	31 Sonic Borings (15-meter grid)			
Parcel 92		2 field days	1060 linear feet of boring			
		18 Soil samples	11 field days			
		10 Groundwater	20 Soil samples			
	Description	samples	6 Groundwater samples			
	Consulting Cost	\$118,765	\$261,870]		
Total Consulting-Both Parcels		\$427,765	\$785,388			
Port Staff						
Legal						
Contingency (16%)						
\$1,500,000 Total: Phase 1 and Phase 2 Site Environmental Assessment and Cultural Resource Monitoring						

Joint Cultural & Environmental Assessment Plan

Investigation Strategy - Phased approach combining cultural resources and environmental assessment actions

- First Phase to prioritize Environmental Assessment borings
- Second Phase to prioritize Cultural Resource borings with follow-up EA borings
- Boreholes to target 30-meter sampling density
 - o Boring depths of 20 feet to confirm pre-fill contacts
 - o Sonic drill rig with large 6-inch diameter core barrel
 - $\circ~$ Continuous coring
 - $\circ~$ No drilling mud required
 - $\circ~$ Can core through difficult material
 - All boreholes will be continuously monitored and logged for potential cultural resources by Willamette project staff
 - All boreholes will be continuously field screened using photoionization detector, visual observations, and olfactory observations

Figure 3 Parcel 92 Proposed Sampling Locations Work Plan for Environmental Site Assessment and Cultural Resource Monitoring at the Parcel 92 Property Port of Tacoma Maritime Campus Project

Phase 1 Environmental and Cultural Resource Assessment	May 22-26, 2023	Scoped (this Authorization)		
Port and Tacoma Public Schools to Present to CPARB's Project Review Committee	May 25, 2023	Scoped (previous Executive Authorization)		
Release Request for Qualifications for Progressive Design Build	May 30, 2023	Scoped (previous Executive Authorization)		
Phase 2 Environmental and Cultural Resource Assessment	July 2023	Scoped (this Authorization)		
Cleanup Action Planning (if needed)	Q4 2023	Not Scoped, Future Authorization		
Site Selection, Planning with Public Engagement	Q4 2023	Not Scoped, Future Authorization		
Progressive Design with Public Engagement	2024	Not Scoped, Future Authorization		
Permitting and Construction	2025-26	Not Scoped, Future Authorizatio		

Financial Summary

- The estimated cost of this Site Assessment work is \$1,500,000.
- The estimated cost of the total project is \$38M.
- The current Capital Investment Plan (CIP) allocates \$38,025,000 for this project.

ltem	This Request	Total Previous Requests	Total Request	Total Project Cost	Cost to Date	Remaining Cost
TOTAL	\$1,500,000	\$300,000	\$1,800,000	\$38,000,000	\$60,107	\$37,939,893

Environmental Impact Review

- <u>Permitting</u>: Phase 1 and Phase 2 sampling can be conducted with existing programmatic permits. Construction permitting needs will depend on the ultimate scope of the project.
- <u>Remediation</u>: This authorization will allow for a thoughtful and thorough site investigation of both Port Parcels and will determine if the properties are encumbered with legacy contamination.
- Stormwater: Not applicable.
- Air Quality: Not applicable.

- Complete site assessment activities and determine if additional cleanup planning is needed and any potential cultural resource constraints.
- Select a progressive design build team and begin site selection and facility planning.
- Work with progressive design build team to develop and implement a Public Involvement Process around the master planning for the site.
- Negotiate the next interlocal agreement with Tacoma Public Schools.
- Return to Commission for additional authorization.

Request project authorization in the amount \$1,500,000, for a total authorized amount of \$1,800,000, for work associated with the Maritime Skills Center and Port Maritime Center, Master Identification No. 101549.01.
